

The following guidelines clarify the Bring-Your-Own-Device (BYOD) program and are intended to guide your child. All grades 6-12 students must bring a laptop to school to support the academic requirements. Other electronic devices such as cell phones, iPads, Chromebooks may be utilized *with permission of classroom teachers* as secondary devices to support learning. If you already own a laptop you would like your child to use, please check its specifications against those listed below to ensure that it meets LJA's suggested minimum requirements:

Suggested Minimum Requirements

Apple OS		Windows OS	
<b>MINIMUM</b> Intel Core i5 2.6GHz dual-core processor Wi-Fi capable 8 GB RAM 256 GB Hard Drive 11" display Mac OS 10.14 (Mojave) Webcam	<b>RECOMMENDED</b> Multicore Intel Processor or M1 64 bit support Wi-Fi Capable 12 GB RAM 512 GB Hard Drive or larger 13" display or larger Mac OS 11 (Big Sur) Webcam	<b>MINIMUM</b> Intel Core i5 2.6GHz processor Wi-Fi capable 8 GB RAM 256 GB Hard Drive 11" display Windows 10 Webcam	<b>RECOMMENDED</b> Intel multi core i7 2.6GHz processor 64 bit support Wi-Fi capable 12 GB RAM 512 GB Hard drive or larger 13" display or larger Windows 10 pro 64 bit Webcam

Additional Recommendations

- The school has a limited number of spare devices to issue to students in an emergency.
- Maintenance and care of the equipment will be the sole responsibility of the student and parents.
- Printers are available only in the library for use. A home printer is highly recommended.
- Consider purchasing an extended warranty with any new devices.
- Students with Apple laptops should provide their own adapters for video and/or audio as needed for classroom presentations.
- The school is not liable for any lost or stolen personal equipment on campus. Label the laptop, charger, and accessories so misplaced items can be returned.
